**VIRAL**

By Shock Therapy Productions

What is the price of internet fame? *Viral* tells the story of Art and Zane – two boys who seek to attain internet ‘fame’ in order to become more popular at school and to make some money. Inspired by true events, *Viral* examines the role of social media and technology and how it impacts the way we record, communicate and think about events of racism, abuse and violence in our community, investigating the line between disassociation and raising awareness about such events.

*Viral* uses physical theatre, multiple role-sharing, verbatim, political theatre, AV and an evocative musical score and to create a visceral and dynamic theatrical experience.

*Shock Therapy Productions is proudly supported by City of Gold Coast. Viral was originally supported by the Queensland Government through Arts Queensland. Tour supported by The Playing Queensland Fund and arTour, initiatives of the Queensland Government through Arts Queensland.*
